

Topic One: Getting Connected and Passwords.

Worksheet

PASSWORD USE

TASK 1- For both Mac and iPad Users

Take time to check through your passwords and sign-ins **that are not related to money, THE SAME PASSWORD.** This will reduce the problems with managing multiple accounts.

CONNECTING

Mac Users

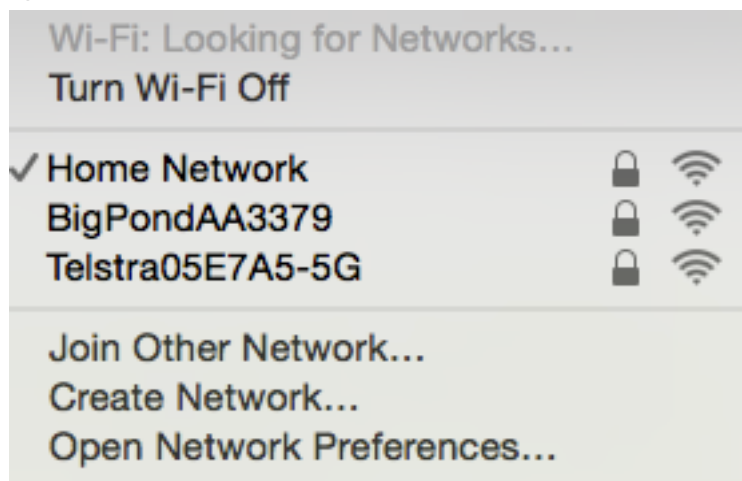

Look at the top right hand side of your desktop screen and see if the wifi icon is active.

If it looks like this you will need to activate it

To Activate:- Click on the icon and see what Networks are available

eg

If they have a lock beside them they will require a password to join.

Click on the Network you wish to use and enter the Password for that Network.

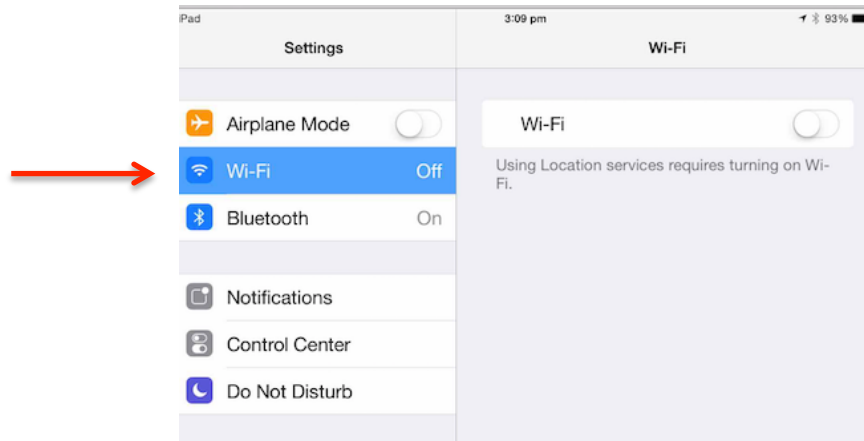

Now return to the U3A Centre's Network

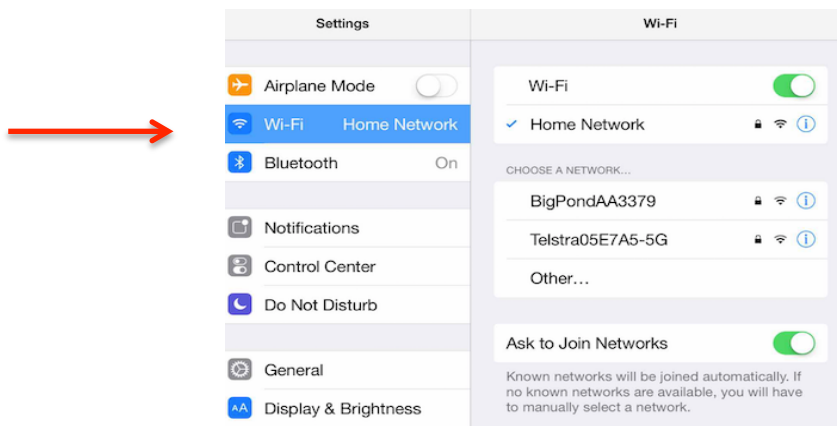

Ipap Users

Go to settings on your Ipap

Tap Wifi Button to turn on

Once turned on the Network options will show. Select though Network option you wish to join. Select ask to join and add Password.

You will see when wifi is active by the radiating arcs in the top left hand corner of your iPad.

TASK 2- For both Mac and iPad Users

Try locating the Tura Bakery Network. This will show up in your Networks. See if you can join it. It should show you that it needs a password.

Now return to the U3A Centres Network.
